

Sayan Sarkar

Bolpur, WB 731204
+916295431895
kaizer2021g@gmail.com

Versatile and results-driven professional with a unique blend of skills in content writing and web development. I specialize in creating engaging, SEO-optimized content that connects with diverse audiences, while also building responsive, user-centric websites using modern web technologies like HTML, CSS, JavaScript, and frameworks like React and Tailwind CSS.

With hands-on experience across blogs, product descriptions, and tech documentation, I craft content that not only informs but also converts. On the development front, I've built and managed scalable websites for communities, college departments, and personal projects—focusing on performance, design, and accessibility.

I thrive in collaborative environments where creativity meets logic, and I'm passionate about shaping digital experiences that are both functional and impactful.
